STATISTICS OF MUNICIPAL FINANCES—1911.

INTRODUCTION.

The Sixth Annual Report on the Statistics of Municipal Finances for the financial years ending between November 30, 1911 and March 15, 1912, presented herewith, contains classified data in considerable detail covering receipts and expenditures and indebtedness for the 33 cities of the State, with summaries for the 70 towns having a population of 5,000 or over and for 177 of the 250 small towns, the number of the latter included within the scope of this report being 14 less than were included in the preceding report. Four of the cities and eight of the towns of over 5,000 population for which data are given in the following pages failed to make returns to the Bureau of Statistics, as required by law; but, as in former years, in order that these important municipalities should not be entirely omitted from the report, the schedules for them were filled out by the special agents or clerks of the Bureau. There were, in addition, 73 small towns from which no returns were received and from which the Bureau did not feel justified in undertaking to secure information at its own expense. Although there are slightly fewer small towns presented in the present report than in the last, issued in July, 1913, this fact does not indicate a retrogression of interest in the subject. On the contrary, the current records of the office show increasing readiness and ability on the part of the accounting officers of the several cities and towns of the Commonwealth to comply with the provisions of the statute requiring an annual return to be made of their financial transactions.

THE STANDARDIZING OF ACCOUNTING SYSTEMS.

At the time of issuing my last annual report 39 cities and towns had petitioned the Bureau for an audit of their accounts or the installation of an accounting system, in accordance with the provisions of Chapter 598, Acts of 1910. Since then 20 towns have taken similar action. A complete list of the 59 cities and towns is given below:—

Amesbury	Deerfield	Hardwick
Amherst	Dracut	HAVERHILL
Ashland	Gardner	Holliston
Avon	GLOUCESTER	Hopkinton
Bedford	Goshen	Ipswich
BROCKTON	Gosnold	LAWRENCE
Carlisle	Halifax	LOWELL
Dedham	Hamilton	Ludlow

LYNN	Petersham	SPRINGFIELD
Manchester	PITTSFIELD	Stockbridge
Mashpee	Plymouth	Swampscott
Medfield	QUINCY	TAUNTON
MELROSE	Raynham	Tisbury
Needham	Russell	Uxbridge
NEWTON	Sandisfield	Wakefield
North Attleborough	Sandwich	Walpole
Northfield	Saugus	Weston
Orange	Sharon	Winchendon
Palmer	Southborough	WOBBURN
Peru	Southbridge	

The above list represents municipalities ranging in size from Gosnold, with a population of 152, to Lowell, with a population of 106,294, and well distributed through the State, the only counties from which the Bureau has received no petitions for this service being Nantucket and Suffolk. There are now employed on this work 15 examiners of accounts under the supervision of the Chief Accountant, Mr. Edward H. Fenton, and it is probable that the work of standardizing the accounts of our cities and towns is proceeding as rapidly as it could satisfactorily be handled were it being done under the provisions of mandatory legislation instead of being entirely dependent upon the voluntary act of the cities and towns.

THE CERTIFICATION OF TOWN AND DISTRICT NOTES.

The number of town notes annually certified by the Director of the Bureau, under the provisions of Chapter 616, Acts of 1910, and the amount of the loans represented by such notes continue to show an increase, as will be seen by the following table:—

YEARS.	TAX LOANS		GENERAL LOANS		TOTAL	
	Number	Amount	Number	Amount	Number	Amount
1911,	983	\$8,974,214.59	433	\$737,349.43	1,416	\$9,711,564.02
1912,	1,093	9,438,850.00	531	1,093,712.20	1,924	10,532,562.20
1913,	1,241	10,958,450.00	1,095	1,727,363.74	2,336	12,685,813.74

And the number of notes certified, as also the amount of the loans, for the first quarter of 1914 exceeds that for the same period for each of the preceding three years. The increase in the amount of the loans issued for purposes other than in anticipation of taxes does not accurately reflect the extent to which new funded or fixed debt has been created; and, indeed, it is not improbable that such indebtedness has not increased in like proportion to the aggregate amount of notes which have passed through the Bureau of Statistics. There are two reasons for this:—First, the increasing esteem in which these certified notes are being held by purchasers, which is apparently leading the towns in many instances to gradually abandon the issue of serial bonds, not subject

to official certification, in favor of a form of security which is so subject; and, secondly, because a considerable amount of old outstanding indebtedness found by the investigations of the Bureau of Statistics to have been issued without conforming to the statutes of the Commonwealth has been refunded during the past two or three years in accordance with the provisions of a considerable body of special enabling acts passed for this purpose.

But, notwithstanding the supervision exercised by the Bureau of Statistics over the issue of town notes by virtue of the certification process does not apply to bonds, the latter have undoubtedly possessed a certain attractiveness as a form of investment, largely because they could be supplied to purchasers with interest coupons attached. Since January 1, however, this department has been in a position to furnish coupon notes for serial loans to those desiring the same, so that towns need no longer feel obliged to issue bonds rather than notes merely for the sake of satisfying the preference of investors for a form of security bearing an interest coupon; and to the extent that such technical advantages as may still adhere under certain circumstances to town bonds are, in time, eliminated, will the serial debt issued for long time loans, as well as the purely temporary debt of Massachusetts loans, be represented by securities certified by a state authority.

By the provisions of Chapter 727, Acts of 1913, notes of fire, water, light, watch, and improvement districts were brought under the same supervision as town notes, the Director of the Bureau of Statistics being required to furnish to the treasurer of each such district a book of forms for use in making notes for money to be borrowed, these notes being then subject to certification by the Director of the Bureau before negotiation. This act took effect January 1, 1914, between which date and May 1 four district notes, aggregating \$10,100 in amount, were certified. It was discovered after the passage of the act that certain perfecting amendments would be necessary in order to avoid embarrassment in its operation, and these were duly provided for in Chapter 55, Acts of 1914, approved February 16.

THE NEW MUNICIPAL INDEBTEDNESS LEGISLATION.

The municipal indebtedness act approved May 28 last year (Chapter 719, Acts of 1913) took full effect on January 1, 1914, certain perfecting amendments which were subsequently found necessary being provided for by Chapter 143 of the Acts of 1914, approved March 7; and by Chapter 317, Acts of 1914, approved April 7. The latter act amended Clause 8 of Section 5 of the act of 1913 so as to permit borrowing for five years for macadam pavement "or other road material" under specifications approved by the Highway Commission, the quoted phrase being inserted in the original law primarily in order to permit loans to be made for the construction of roads made of a preparation of oil or other material which might be deemed by the Highway Commission to be in the same category as macadam with respect to lasting qualities. In no other respect has the general law of 1913 been amended with a view to affecting the character of the loans authorized by it. A bill

introduced in the Legislature of 1914 which provided, — in addition to the list of purposes for which indebtedness might be incurred as authorized by law, — that five-year loans might be made for damage settlements, was rejected.

Although it was to be expected that the administration of the new act, involving as it did so many radical changes in the old law, might be attended with some embarrassment at the outset, our cities and towns appear to have been adjusting themselves to its requirements with a minimum of difficulty, and it appears to have met with very general approval. Between January 1 and May 1, the Bureau of Statistics had referred to it by the Legislature of 1914 and made report upon (under the provisions of Chapter 677, Acts of 1913) some 12 bills from nine municipalities for authority to incur debt outside the debt limit, several of these being for the purpose of refunding indebtedness which was not being properly handled under the old statute and which could not be legally provided for under the terms of the new general law, and therefore necessitated special legislation. The policy of the Bureau in this matter had been merely to seek to establish a uniform recognition of general principles and to secure the adoption of a standard phraseology in the drafting of technical provisions in bills similar in character, the Legislature judging upon the facts in each particular case as to the expediency of granting the authority sought by the municipality for special legislation for purposes not recognized by the general law.

The duties of the department in administering and construing the legislation relative to municipal indebtedness, as well as the increasing number of town notes and their broadening character, involving the decision of many new questions of law and other detail, have perceptibly added to the labors and responsibilities of the Municipal Division and have operated somewhat to delay temporarily the strictly statistical work and the preparation of this report. To the Chief Statistician of the Division, Mr. Theodore N. Waddell, I wish to express my grateful appreciation for the ability and faithfulness which he has shown in passing upon these matters in the first instance and in performing the general duties entrusted to him; and I also wish to recognize the painstaking care with which Miss Hannah M. Varney has supervised the clerical work, including the preparation of the tabular matter in this report for the printer.

CHARLES F. GETTEMY,
Director, Bureau of Statistics.

STATE HOUSE, BOSTON, July 1, 1914.

PLAN OF THE REPORT.

The statistical presentations of this report, following the introductory matter, are arranged in three principal parts, devoted respectively to the finances of (I) the 33 cities; (II) the 70 towns having a population of 5,000 or over; and (III) the towns having a population of less than 5,000 whose financial transactions were reported to the Bureau. In all the tabulations, unless otherwise indicated, the cities and towns are arranged in order of population for convenience of comparison.

PART I. — CITIES.

This part is subdivided as follows: — (A) Summary of Financial Transactions; (B) Receipts from Revenue; (C) Payments for Maintenance and Interest; (D) Indebtedness; and (E) Cash Balances.

(A) *Summary of Financial Transactions.*

This division consists of a summary table (designated Table I) or general survey of all the financial transactions of the 33 cities of the Commonwealth (pp. 4-23). The several cities, with the exception of Boston, which has financial transactions of such magnitude as to warrant presentation independently of the other cities, are arranged and graded, for purposes of comparison, according to the population of the United States Census of 1910, the receipts being shown on the left-hand page and the payments on the right, typographical considerations making it necessary to adopt an arbitrary grouping of four municipalities to a page.

(B) *Receipts from Revenue.*

Table II (pp. 26, 27) shows receipts from *General* and Table III (pp. 28, 29) receipts from *Commercial* Revenue. The former consists of taxes, licenses and permits, fines and forfeits, grants and gifts, and all other general revenue; while the latter is composed of revenue from special assessments (whether for expenses or outlays), privileges, departmental earnings, public service enterprises, cemeteries, and interest.

Table IV (pp. 30-36) is an exhibit of classified Departmental Earnings (being the detail of Column D of Table III), from which may be seen the amount of revenue received by the several municipalities from their various departments. Unclassified receipts are excluded because of their diversity. This table is self-explanatory and is suggestive as disclosing the varying degree to which different cities have discovered opportunities for revenue from this source.

Table V (p. 37) is a tabulation of interest receipts classified so as to show the amount of interest derived from money on deposit, from deferred taxes and special assessments, from public trust funds (sub-classified according to particular funds, so far as is practicable), from investment funds, and from miscellaneous sources.

Table VI (p. 38) presents a summary of revenue receipts, giving within the scope of a single table in a form convenient for comparison the receipts from all sources of revenue of the 33 cities.

It is of interest to note that of the total revenue receipts of the 33 cities of the Commonwealth for the year covered by the report, 76.1 per cent is from general revenue sources and 23.9 per cent from commercial revenue sources. The revenue receipts of the city of Boston are 76.8 per cent from general and 23.2 per cent from commercial sources.

(C) *Payments for Maintenance and Interest.*

The tables in this division, VII to X, inclusive (pp. 41-62), exhibit gross payments, classified in detail, on account of the maintenance cost, or what are sometimes called the "current expenses" of the various departments or kinds of municipal services. Interest payments are similarly but separately shown not only because it is desirable to exhibit this item of expense independently, but because interest is properly a capital rather than a departmental charge.

It would be most interesting and significant, too, if we could calculate the net cost of the several municipal services so as to show the actual burden of each upon the taxpayer, and it might be supposed that such a figure could be obtained simply by deducting the earnings of a department from the amount necessary to maintain it; but there is as yet on the part of accounting authorities no clear or general understanding as to what receipts should be treated as departmental earnings, thereby constituting a proper offset to expense, and what, on the other hand, being in the nature of an assessment upon the taxpayer rather than a charge upon the citizen, cannot be legitimately deducted from a gross cost figure in order to obtain net cost of maintenance.

In comparing certain departmental expenses, large differences will occasionally be noted for the same class of services, the reason for which is not sufficiently apparent to warrant our attempting to assign it without more or less exhaustive inquiry. Meanwhile the differences, even for a single year, which may be noted in these comparative tables for cities of approximately the same size should stimulate local discussion for the purpose of ascertaining whether a satisfactory explanation can be found.

From the interest table (p. 62) we note that the total interest burden of the 33 cities for the year covered by the report was \$10,380,467.93, of which \$5,845,084.98, or 56.3 per cent, was interest on the general debt, \$423,386.27,

or 4.1 per cent, was interest on tax and other temporary loans, \$29,001.65, or 0.3 per cent, was interest on *trust funds used*, the remaining 39.3 per cent of the gross interest payments being for debt on account of public service enterprise and cemetery loans, metropolitan assessments for sewer, park, and water purposes, state assessments on account of grade crossing abolition, and miscellaneous debt not specified. It is of interest to note that the total assessment on the city of Boston for interest on metropolitan debts was \$1,494,738.23, or 26.7 per cent of the total interest burden of the city. (See also payments to the state sinking and loan funds on page 68.) Over 60 per cent of Somerville's total interest burden is on account of metropolitan assessments.

(D) *Indebtedness.*

Table XI (p. 65) shows the outstanding indebtedness classified by the character of the obligation; Table XII (p. 66), the relation of indebtedness to valuation, the valuation figures as reported to the Tax Commissioner being used; Table XIII (p. 67), the debt transactions for 1911, classified according to the character of the obligation; Table XIV (p. 68) shows separately the payments to the state sinking and loan funds; and Table XV (p. 69) shows the method adopted by the cities of meeting debt requirements from taxation.

A tabulation which gives figures for the funded or fixed debt and the net debt only of a municipality does not, however, tell the whole story of the debt burden. Tax loans, it is true, are not included in reckoning the limit of indebtedness under the law, but though they are temporary transactions with uncollected taxes presumably as an offsetting asset, they constitute in fact a permanent burden, since they are as a class annually recurrent. That is to say, in numerous cities of the Commonwealth, there is always an outstanding debt consisting of temporary interest-bearing loans which may be no sooner paid off than new loans of a similar kind are negotiated, and in addition to these temporary loans there is also in some cities at the end of each year a certain amount of unpaid warrants or orders which must be treated as a liability, even though there is an offset in a sufficient amount of cash on hand. Loans in anticipation of bond issues, although of a temporary character, are in reality *fixed* debt (having no assets as an offset) and in Table XII are included in the total of funded or fixed debt and reckoned in determining the net debt. Table XI (p. 65) has therefore been prepared for the purpose of showing the aggregate outstanding indebtedness, including not only the funded or fixed debt, but also temporary debt and warrants or orders unpaid.

The net funded or fixed debt is found by deducting from the total funded or fixed debt the amount which has been set aside in sinking funds to pay the debt when due. Funded or fixed debt does not include tax loans or outstanding warrants or orders, because these debts are considered temporary

and it is assumed that such obligations are offset by theoretically "quick" assets. Thus, tax loans are offset by uncollected taxes, and warrants and orders by cash on hand.

The table of debt transactions (p. 67) is of interest as showing the amount of debt incurred during the fiscal year 1911 for the several purposes specified, and the amount of debt cancelled during the year, excepting payments to the state sinking and loan funds on account of grade crossings and metropolitan assessments for sewer, park, and water purposes. These payments represent the cancellation of a portion of the city's debt incurred by the State on its account, and for this reason are excluded. This presentation continued through future reports will enable comparisons to be made for a series of years, and will disclose the tendency of different municipalities to increase or decrease the amount of debt incurred year by year.

Included in the term "General Loans" in the table of debt transactions are not only loans issued for general purposes but likewise all loans whether specified as for school, fire, or police, etc., purposes, since these could not be shown separately by figures which would be comparable. We also include with general loans *all sums borrowed from trust funds* where notes or other evidence of indebtedness have been given.

Payments to the state sinking and loan funds on account of grade crossings and metropolitan sewer, park, and water assessments are shown separately in Table XIV (p. 68). The aggregate amount thus paid for the 33 cities in 1911 was \$1,194,706.82, of which *Boston* paid \$755,906.36, or 63.3 per cent.

Table XV (p. 69) is of interest as showing the relative use by the 33 cities of Massachusetts of the two methods of meeting their debt obligations. The payments to the state sinking and loan funds on account of grade crossings and metropolitan assessments are included in this table in order to show the annual debt charges against revenue, but they are *assessments* and not properly charged as a serial or municipal sinking fund payment.

(E) *Cash Balances.*

Table XVI (p. 73) shows the amount of cash on hand held by the treasurer and departments at the beginning and close of the fiscal year 1911.

PART II. — TOWNS OVER 5,000 POPULATION.

The subdivisions of this part are as follows : — (A) Summary of Financial Transactions; (B) Indebtedness; (C) Cash Balances.

The tables in Division A, *Summary of Financial Transactions* (pp. 78-117), are similar in form and detail to those given for the cities in Part I, the towns being arranged in groups of four according to graded population, with the exception of Brookline, the largest town, which is presented separately as its transactions are scarcely comparable with those of any other town. The

tables in the division devoted to *Indebtedness* (II, III, IV, V, and VI, on pp. 120-126, inclusive) are similar to those given for the cities, and the comments made in the latter connection are likewise applicable to the towns. The statements of *Cash Balances* (pp. 128, 129) for the towns are also self-explanatory.

PART III. — TOWNS UNDER 5,000 POPULATION.

There were 177 towns out of 250 having a population of less than 5,000 from which returns of financial transactions in some form were received. These comprise Part III and are presented on the same plan as the towns of over 5,000 population which are shown in Part II.

ANALYSIS TABLES.

REVENUE FOR CURRENT CHARGES AND CURRENT CHARGES AGAINST
REVENUE.

Tables are presented on pages xvi to xix showing the revenue for current charges and current charges against revenue, together with the excess or deficiency of revenue, for the cities and large towns of the Commonwealth for the years 1907, 1908, 1909, 1910, and 1911. For the years 1910 and 1911 premiums received on account of loans have been included with the revenue, as they are used to meet expenses chargeable to revenue.

Attention has been called in former reports to the fact that an attempt to draw inferences from figures reflecting a single year's transactions might lead to false conclusions which would not be fair to the cities and towns, inasmuch as these figures represent cash transactions for the several years, but do not include revenues represented by accounts receivable or expenses represented by accounts payable. It is also true that certain of the cash transactions include revenues and expenses of preceding years. The data are, however, the best that can be given under the system of accounting generally in use by the cities and towns. This table, covering a period of five years, does, nevertheless, give data from which certain general conclusions can be drawn, and while there are certain modifying circumstances which should, in justice, be taken into account, it is believed that such a comparison is of value and should serve to stimulate local inquiry.

It must not be inferred, in case the city or town shows an excess of revenue over current charges against revenue, that the municipality is raising too much ; this may or may not be the case, since this excess represents the amount raised for the acquisition of public property or the construction of improvements which are more or less permanent in character. According to the method of classification we have adopted, practically every city or town should show an excess of revenue, owing to the fact that annually recurring charges for outlays should be included with the current charges against revenue; we are, however, unable to judge exactly as to the amount which is annually recurring, varying, as it obviously must, with the population and demands of society, and we must take into consideration both the length of life of the object and the probability of necessity for additional improvements of similar character.

Certain of our cities and towns, during the period covered by these tables, have been raising by taxation funds for the liquidation of indebtedness previously incurred without a proper annual contribution from revenue being made, thus placing a burden upon the city or town during the years when such debts mature; while this is not shown by the excess or deficiency in this

table, — since the revenue and charge against revenue are offsetting, — it is, nevertheless, reflected in the increased amount received and expended. In other cases, cities and towns have refunded maturing debt under authority granted them by special acts of the Legislature, and therefore are not compelled to assess in the tax levy even that portion of the maturing indebtedness which should, as a matter of principle, be charged to the current year's account.

Nor should it be assumed that an excess payment on account of current charges against revenue necessarily reflects on the officials charged with the financial management of the municipality, since the deficit may be caused by the failure to collect revenue which had been duly assessed or conservatively estimated; and in those cities or towns which show a shifting from year to year, such is likely to be the case. However, in the cities and towns where an annual deficit is shown for the entire period covered by the tables, the conclusion seems justified that revenues must be increased or expenses be curtailed.

REVENUE CHARGES FOR MAINTENANCE, INTEREST, AND DEBT REQUIREMENTS.

Tables are presented on pages xx to xxii showing the distribution of charges against revenue into maintenance, interest, and debt requirements by amounts and percentages for the cities and large towns for the year 1911. These tables do not necessarily reflect the present financial policy of the officers responsible for the management of municipal affairs, but call attention to the fact that in many of our cities and towns a very large percentage of the revenue is required to pay interest and debt charges.

COMPARATIVE STATEMENT OF VALUATION, REVENUE FOR CURRENT CHARGES, AND CURRENT CHARGES AGAINST REVENUE FOR THE YEARS 1907 AND 1911, WITH PERCENTAGES OF INCREASE OR DECREASE.

The table on page xxiii shows a comparative statement with the percentages of increase or decrease of the valuation, revenue, and charges against revenue of the 33 cities for the years 1907 and 1911. This table should be of value in the study of the question of taxation, as it points out certain facts relative to the ever-increasing tax rate.

Excess or Deficiency of Revenue : Cities.

CITIES. (In order of population, 1910)	REVENUE FOR CURRENT CHARGES					CURRENT	
	1907	1908	1909	1910	1911	1907	1908

* Decrease.

DEFINITION OF TERMS.

Revenue Receipts. Revenues of a municipality are the amounts received or receivable, in cash or other form, for meeting its expenses and outlays from the exercise of its corporate power of taxation and police control and its corporate authority for conducting business undertakings. Revenue receipts may be said to fall within two principal classes: 1. General; 2. Commercial.

General revenues are moneys accruing to the municipal treasury under the general taxation and police powers, and from donations or grants from various sources, in return for which the municipality renders only a general service *without special regard to the possible benefit to be derived by the taxpayer in his capacity as an individual*. It is for this general service that a person pays taxes in various forms, including fees for permission to engage, as an individual, in certain gainful occupations, which, because of their character, the law has said must be under regulation in the interest of the community as a whole. His returns for these contributions to the public treasury are the maintenance of order, the protection of property against fire, the conservation of the public health, the education of all the children in the community (a matter which is presumed to concern him, whether he has children of his own or not), and the various other things which he expects the municipality to expend money for, though from many of them he may receive only an indirect benefit. The Bureau of Statistics classifies General Revenue as follows:—I. *Taxes*; II. *Licenses and Permits*; III. *Fines and Forfeits*; IV. *Grants and Gifts*; V. *All Other General Revenue*.

Commercial revenues, as distinguished from general revenues, are moneys accruing to the municipal treasury from property owners or citizens *in return for a particular service rendered*, including improvements calculated to permanently enhance the value of property, or thing of value furnished, to the individual by the municipality, *i.e.*, the term “commercial revenue” conveys the idea of a definite *quid pro quo* on the part of the city or town; and the citizen who pays special assessments, whether voluntarily or under compulsion, may be supposed to have something more tangible to show for his contribution to the treasury than simply the privilege of living in an organized state of society, with the protection to life and property and the general social advantages which such a privilege implies. In other words, when a citizen makes to the public treasury a contribution of the kind which we class as “commercial revenue,” it is a payment *in addition* to what he must pay as his share of the revenue which it is incumbent upon the municipality to raise for *general* purposes, and he does so for the purpose of

obtaining in return a certain special benefit to himself as an individual. The Bureau of Statistics classifies Commercial Revenue as follows:— I. *Special Assessments*; II. *Privileges*; III. *Departmental*; IV. *Public Service Enterprises*; V. *Cemeteries*; VI. *Interest*.

Non-revenue Receipts. Non-revenue receipts consist of receipts on account of:— Certain Offsets to Outlays; Municipal Indebtedness; and Agency, Trust, and Investment.

OFFSETS TO OUTLAYS. The term *Offsets to Outlays* has been adopted as a more desirable expression than “capital receipts,” formerly in ordinary use to denote receipts accruing from the sale of real property, reimbursements on construction work, and, in general, all receipts which are, or, in a proper system of municipal finance, should be, devoted to lessening the burden upon the taxpayer for the cost of permanent improvements and diminishing indebtedness.

MUNICIPAL INDEBTEDNESS. The general statutory authority for the incurring of debts by the cities and towns of Massachusetts is found in Chapter 27 of the Revised Laws, amended by Chapter 719, Acts of 1913 and Chapters 143 and 317, Acts of 1914. There are numerous special acts authorizing indebtedness for certain purposes. The classification of Municipal Indebtedness is as follows:— I. *Loans in Anticipation of Taxes*; II. *Other Temporary Loans*; III. *Loans for General Purposes*; IV. *Trust Funds Used*; V. *Loans for Public Service Enterprises*; VI. *Loans for Cemeteries*; VII. *Bonds Refunded, Current Year*; VIII. *Unpaid Warrants or Orders of Current Year*.

AGENCY, TRUST, AND INVESTMENT. The elimination, as far as practicable, from the category of revenue receipts of all receipts which, being purely temporary accounts, are not in the nature of *municipal* revenue is most desirable. There are three classes of these transactions: 1. *Agency*; 2. *Trust*; 3. *Investment*.

1. *Agency.* This term is used to describe and to include all transactions in which the municipality acts as the agent of some other civil division (*e.g.*, the Commonwealth or the county) in the collection of revenue which does not in any sense belong to the municipality, but must, under the law, be turned over to another civil division for the uses of the latter. State, county, and non-resident bank taxes, and certain license fees fall into this class. When, also, a municipality performs a material service for another civil division, as, for example, when it makes expenditures upon grade crossings for which it is reimbursed by the Commonwealth, it is acting as an agent, and receipts and payments on account thereof are agency transactions.

2. *Trust.* Non-revenue receipts falling under the category of trust funds consist of the principal of trust funds paid into the municipal treasury, with either the ultimate investment or expenditure thereof at some future date (pursuant to the conditions laid down by the

donor) in view; and also funds which for various reasons are being retained in the municipal treasury, but which, since they are not the property of the municipality, the latter is in honor bound to keep inviolate, subject to the call of the owners. Perpetual care funds, income received for investment, and private trust funds and accounts are included under this head. *Private* trust funds differ from *public* trust funds in that the latter are given the municipality to be held in trust, invested, and the income used for some municipal purpose, while "private trust funds and accounts" is the term used to describe sums held temporarily for individuals, such as deposits made to guarantee the fulfilment of contracts, taxes and assessments paid under protest, pay roll "tailings," etc.

3. *Investment.* Receipts or payments on account of securities in which sinking funds are invested are probably the most common form of what we classify as investment transactions. But municipalities occasionally make investments in material enterprises, such as the stock of railroads, or they may establish under the provisions of Chapter 191, Acts of 1905, municipal insurance funds, the transactions of which would be treated under this heading.

Maintenance. Included in this term are only those costs which are ordinarily termed "running expenses," or annually recurring expenses. The classification is as follows:— I. *Departmental*; II. *Public Service Enterprises*; III. *Cemeteries*; IV. *Administration of Invested Funds*.

Interest. Payments for Interest are classified as follows:—

1. *On Loans in Anticipation of Taxes.*
2. *On Other Temporary Loans.*
3. *On Loans for General Purposes.*
4. *On Trust Funds Used.*
5. *On Loans for Public Service Enterprises.*
6. *On Loans for Cemeteries.*
7. *Metropolitan Interest Requirements* (sewer, park, water).
8. *State Assessment for Grade Crossings.*
9. *All Other.*

Outlays. This term is used in referring to the costs of permanent properties and improvements, and not in referring to the costs of operation and maintenance. The classification is similar to payments for maintenance, the three general subdivisions being: I. *Departmental*; II. *Public Service Enterprises*; III. *Cemeteries*. Payments for outlays include, for each department or service, expenditures for any work of construction or public improvement which increases the visible assets of the municipality. The line of demarcation is admittedly often exceedingly difficult to draw, especially with relation to the purchase of supplies and materials; generally, however, any supply

which is subjected to such usage that it has to be renewed annually, or as often as once in two or three years, may be regarded as a charge against maintenance; but if it may be reasonable to suppose that an article bought will last for several years, the cost of the same may properly be regarded as an outlay.

Municipal Indebtedness. The classification of Municipal Indebtedness is as follows:—

1. *Loans in Anticipation of Taxes.*
2. *Other Temporary Loans.*
3. *Bonds and Notes from Sinking Funds.*
4. *Bonds and Notes from Revenue.*
5. *Metropolitan Sinking Fund and Serial Loan Requirements.*
6. *State Assessment for Abolition of Grade Crossings Loan Fund.*
7. *Bonds Refunded, Current Year.*
8. *Warrants or Orders of Previous Years.*

Sinking Funds. In a classification and tabulation of municipal finances which assumes to take into consideration all cash transactions, account must be taken of amounts paid into the municipal treasury by sinking fund commissioners for the extinction of debt. Where bonds and notes are paid at maturity directly by sinking fund commissioners without passing through the municipal treasury, we consider such transactions as a payment of debt by the municipality from money received from sinking funds, just as if it had been first paid by the commissioners to the treasurer.

Transfers. The so-called departmental transfers (*i.e.*, where one department does work for another) and transfers from one appropriation to another do not represent the *actual receipt or expenditure of cash*; therefore we have undertaken to eliminate them from departmental accounts.

Transfers to sinking funds, which represent the contribution from revenue for the liquidation of debt and correspond to serial debt payments direct, are charges against revenue. Transfers from sinking funds, from the accumulation for the payment of debt due, are offsets to the debt payment.

PART I.

CITIES.

Fiscal Years of Cities.

The data given in the tables in Part I are for fiscal years ending in the several cities, as follows:

CITIES.	Fiscal Year Ending	Population Group	Pages of Report
BEVERLY,	Dec. 31, 1911	7	18, 19
BOSTON,	Jan. 31, 1912	—	4, 5

¹ Includes \$100,000 trust funds used for water construction; also \$108,552.53 wharf bonds.

TABLE XII. — *Relation of Indebtedness to Valuation — 1911.*

NOTE. The valuation given in this table is the assessors' valuation of real and personal property as of April 1, 1911, exclusive of the non-resident bank stock, as reported to the Tax Commissioner.

The total debt shown in the table is the funded or fixed debt. This amount differs from the total debt shown in Table XI, which includes *funded* or *fixed* debt and also temporary debt. If the amount of tax loans and warrants or orders is deducted from the total debt shown in Table XI, the result will give the funded or fixed debt shown in Table XII.

¹ Includes Hyde Park.

TABLE XIII. — *Debt Transactions for 1911 Classified by Character of Obligation.*

NOTE. The amount of debt as shown in the following table does not include the sinking and loan fund payments to the State on account of grade crossings and Metropolitan assessments. These payments are shown in Table XIV, on page 68. For this reason the total amount of cancelled debt as here shown differs from that shown in Table I, Division A, pages 4 to 23, under the section "Municipal Indebtedness."

Refunding bonds for the current year were bonds issued for general purposes, excepting in the city of Pittsfield, where \$114,000 of water bonds were refunded.

¹ Amounts in this column are for tax loans, excepting in the town of Ipswich.

* Includes \$2,000 in anticipation of bond issue.

TABLE III. — *Relation of Indebtedness to Valuation — 1911.*

NOTE. The valuation given in this table is the assessors' valuation of real and personal property as of April 1, 1911, exclusive of the non-resident bank stock, as reported to the Tax Commissioner.

The total debt shown in the table is the funded or fixed debt. This amount differs from the total debt shown in Table II, which includes *funded or fixed* debt and also temporary debt. If the amount of tax loans (see footnote 2, Table II) and warrants or orders is deducted from the total debt shown in Table II, the result will give the funded or fixed debt shown in Table III.

TABLE IV. — *Debt Transactions for 1911 Classified by Character of Obligation.*

NOTE. The amount of debt as shown in the following table does not include the sinking and loan fund payments to the State on account of grade crossings and Metropolitan assessments. These payments are shown in Table V, on page 125. For this reason the total amount of cancelled debt as here shown differs from that shown in Table I, Division A, pages 78 to 117, under the section "Municipal Indebtedness."

Refunding bonds for the current year were bonds issued for general purposes, excepting in the town of Abington, where \$3,000 of water bonds were refunded.

¹ The total loan fund payment to the State on account of grade crossings, as paid by the town of Dedham, does not appear in this table, inasmuch as Westwood, which was set apart from Dedham, paid its proportionate part of this assessment.

The following towns over 5,000 population made no sinking and loan fund payment in 1911 to the State on account of grade crossings and metropolitan sewer, park, and water systems: —

Abington	Fairhaven	Milford	Rockland
Amesbury	Framingham	Montague	Southbridge
Amherst	Franklin	Natick	Spencer
Andover	Gardner	North Andover	Stoughton
Athol	Grafton	North Attleborough	Ware
Blackstone	Hudson	Northbridge	Webster
Bridgewater	Leominster	Norwood	Westborough
Clinton	Mansfield	Orange	Westfield
Concord	Marblehead	Palmer	West Springfield
Danvers	Maynard	Peabody	Whitman
Easthampton	Methuen	Plymouth	Winchendon
Easton	Middleborough	Reading	

TABLE VI. — *Method of Meeting Debt Requirements from Taxation — 1911.*

TABLE III. — *Relation of Indebtedness to Valuation — 1911.*

NOTE: The valuation given in this table is the assessors' valuation of real and personal property as of April 1, 1911, exclusive of the non-resident bank stock, as reported to the Tax Commissioner.

The total debt shown in the table is the funded or fixed debt. This amount differs from the total debt shown in Table II, which includes *funded or fixed* debt and also temporary debt. If the amount of tax loans, other temporary loans such as are found in Foxborough, and warrants or orders, is deducted from the total debt shown in Table II, the result will give the funded or fixed debt shown in Table III.

There are 30 towns which showed no funded or fixed debt.

TOWNS (Population under 5,000)	Popu- lation of 1910	Percent- age of Net Debt of Valua- tion	Valuation of 1911	Total Funded or Fixed Debt	Sinking Funds	Net Funded or Fixed Debt

Totals,	265,224	-	\$276,229,834	\$4,464,656.29	\$438,825.67	\$4,025,830.62

TABLE IV. — *Debt Transactions for 1911 Classified by Character of Obligation.*

NOTE. The amount of debt as shown in the following table does not include the sinking and loan fund payments to the State on account of grade crossings and Metropolitan assessments. These payments are shown in Table V, on page 242. For this reason the amount of cancelled debt as here shown differs from that shown in Table I, Division A, pages 136 to 227, under the section "Municipal Indebtedness."

Refunding bonds for the current year were bonds issued for general purposes, excepting in the town of Millis, where \$12,500 of water bonds were refunded.
